DORMANT VEHICLE AFFIDAVIT

Definitions:

Dormant Vehicle—means a motor vehicle for which a policy of liability insurance is required and will not be operated for an extended period of time because of mechanical or seasonal circumstances.

Seasonal Vehicle—means a motor vehicle that is not used during certain periods of the year because of weather or other factors that make operation of the vehicle during those periods undesirable, unnecessary or impractical. An extended period of time as it pertains to seasonal vehicles is a period of not less than three months.

Mechanical Circumstances—means that the components or systems of a motor vehicle have failed to such an extent that the vehicle cannot be operated. An extended period of time as it pertains to mechanical circumstances is a period of not less than thirty days or more than six months.

Nevada Revised Statutes (NRS) 485.320.3 requires that a person who owns a dormant vehicle and who cancels the policy of liability insurance covering that vehicle or allows the policy to expire, cancel the vehicle registration on or before the date on which the policy is canceled or expires. The registered owner may keep the license plates for one year and use them to re-register the vehicle in Nevada.

When a vehicle is going to be dormant for seasonal or mechanical reasons, the owner must cancel the vehicle registration through the Department before canceling the insurance policy. If the registration is not canceled, the vehicle registration will be suspended. The reinstatement fee for an insurance verification suspension is \$250.00.

If a Dormant Vehicle Affidavit is submitted after the registration has been suspended, supporting documents (receipts for storage and/or repairs) must be included. If the Dormant Vehicle Affidavit is approved by the Department, the registered owner is required to pay a \$50.00 reinstatement fee.
